

Electrical Technology Licensure Disclosure

The [Associate of Applied Science in Electrical Technology](#) and [Certificate of Applied Science in Electrical Technology](#) are recognized by the Montana Department of Labor and Industry as an apprentice-compliant program of study. All provisions apply only to Montana registered apprentices and registered Montana sponsors. Based on successful completion of the two-year electrical technology program, a maximum of 3,000 OJT hours may be approved by the Registration Agency Program, provided the sponsor elects to grant the 3,000 OJT credit hours or a portion thereof to the apprentice based on demonstration of skills. If the one-year electrical technology program has been completed, the number of OJT credit hours is 1,500. For apprenticeship information, contact the [Montana Registered Apprenticeship Program](#).

This disclosure indicates the states and territories that FVCC has determined through a reasonable, good-faith effort that the MLT program **meets**, **does not meet**, or has **not determined** if the program meets the educational requirements for licensure. Additional requirements include but are not limited to, application and licensing fees, state examination, supervised electrical work experience, completion of an apprenticeship program, background check, etc. Continuing education may also be required for the maintenance of licensure/certification.

State/Territory	Licensing Board/Agency	Meets Educational Requirements for Licensure

*Illinois, Indiana, Kansas, New York, and Pennsylvania do not offer statewide licensure for journeyman electricians. Electrical licenses are issued by local municipalities, and requirements may vary by jurisdiction. Contact the local electrician licensing board for more information.

This disclosure was last updated on June 26, 2024. However, this disclosure may not reflect recent changes or requirements because professional licensure and certification requirements are subject to change. Students are strongly encouraged to contact the state licensing board directly to verify education and licensing requirements in their state/territory.
